

Dulwich Society Gardens Sub-committee – Terms of Reference

October 2022

We are volunteer members of The Dulwich Society who support and encourage gardens and gardening in the Dulwich area through a number of activities:

- we produce an annual publication “Dulwich Gardens open for Charity”, which we distribute widely in the local area
- we publicise these openings and our other activities through the Society’s website and e-Newsletter, our own Twitter account, local magazines, etc
- we run a Twitter account @DulwichGarden to promote the garden openings, other local gardening and horticultural activities and “green” matters
- we arrange one or more local garden visits, a talk and a coach trip each year
- we contribute to the Society’s quarterly Journal
- we recommend appropriate projects for funding by the Society or for Southwark Council’s CGS grants, and manage these where appropriate
- we keep an eye on the gardening aspects of the Dulwich Estate Scheme of Management’s amenity areas, and try to influence these where required
- we try to maintain good relations with those people / entities interested in local gardens and gardening
- membership of the committee is open to all members of the Society who can contribute to our activities and who share our aims.
